CEMINTEL® BARESTONE™ An Australian Original

Cemintel Barestone prefinished panels have become firmly established as Australia's favourite choice for internal and external applications.

Barestone panels provide a natural, raw appearance that blends seamlessly into its environment and easily adapts to modern, contemporary designs.

Barestone is available in four colours – Original, Ash, Lunar and Graphite. Ash, Lunar and Graphite add colour depth, while maintaining the raw, natural appeal of the much loved Original.

Barestone™ External

Barestone External can be used in many diverse ways and cut to different shapes and sizes for dramatic design effect. The panels feature Cemintel water-blocking technology and are factory sanded, ready for installation with the Cemintel Expresswall system.

Barestone™ Internal

These panels have a stain resistant coating applied and are simply installed internally with either split battens, adhering to timber battens, and for a more industrial look, exposed fixing.
