STYLE

Fresh and familiar from the Australian design leaders

Make Cemintel Street Style
part of your dream home

Find your Street Style

When designing your dream home, it's important to build a house that's going to meet the look and quality you're after, as well as other lifestyle demands. You want a home that's wonderful to live in, and that will last for years to come.

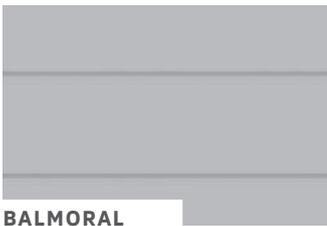

You'll want to consider timeless design features and materials that not only look great, but are sturdy, hardwearing and able to protect you and your family from the mixed Australian elements.

Building Better Homes for a Better Future.

*Cemintel Street Style sets the trend
 for the next generation of Australian homes*

The Street Style collection brings together new and classic fibre cement cladding and weatherboard products to create the next generation of distinctly Australian homes. The collection gives homeowners the materials required to create their own individual statement that will stand the test of time in terms of both style and craftsmanship.

Weatherboards

Whether it's strong street appeal, a classic coastal look, or a more upmarket traditional look, Cemintel weatherboards are the perfect choice. The clean horizontal lines of a weatherboard home work beautifully with modern Australian architecture. They can be painted in any colour to suit your lifestyle and look. Cemintel fibre cement weatherboards won't shrink, swell or crack, and are easier to maintain than timber boards.

*Be wise with Weatherboard
– Traditional Style without
the maintenance*

*Timeless, tailored tradition
- a modern take on weatherboard*

BALMORAL

A modern take on the timeless weatherboard, Balmoral™ is a very stylish product. With strong, deep shadow lines, these 16mm weatherboards enhance both traditional and contemporary residential design, allowing you to create the perfect home.

- 16mm thick profile provides strong, deep shadowlines
- Pre-primed in a Dulux recommended primer colour and ready to paint
- Lightly textured to help provide a more even finish
- Gun nailable for a faster installation

Balmoral

Scarborough

SCARBOROUGH

A subtle, stylish weatherboard, Scarborough® can be used both externally and internally. With its crisp shadow lines from the 12mm thick profile, these weatherboards will enhance both classic and more modern residential designs allowing you to create a warm and inviting home.

- A stylish, subtle approach to an Australian classic
- Crisp shadow lines from the 12mm thick profile
- Pre-primed in a Dulux recommended primer colour and ready to paint
- Concealed fixing system for a cleaner aesthetic
- Gun nailable for a faster installation

Aspect

ASPECT CLADDING

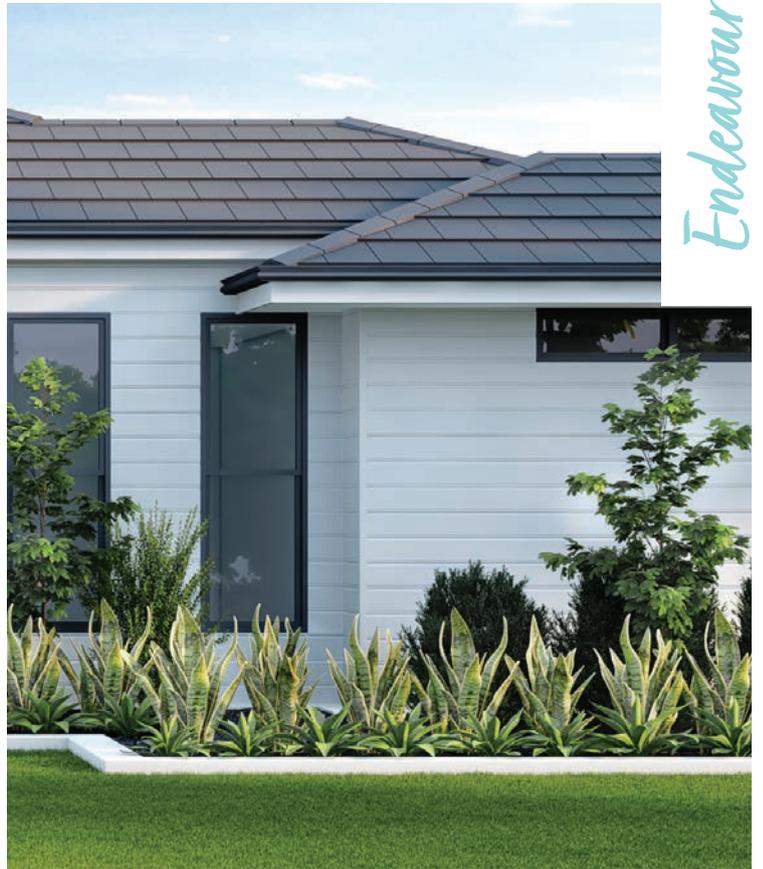

A distinctive large format, contemporary weatherboard that provides the ideal combination of clean and classic design. Aspect Cladding has a smooth pre-primed face that is ready to paint as part of your preferred palette.

- Smooth pre-primed face that is ready to paint
- Ship-lap joint means less fixings
- Gun nailable for a faster installation

The classic Australian weatherboard look

Headland

Endeavour

HEADLAND

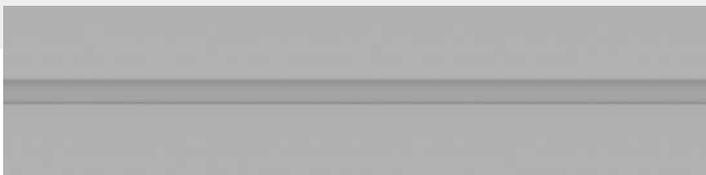

A traditional weatherboard, Headland® is sharp edged with a linear recess that provides that classic Australian feel. It works equally well in a standalone weatherboard home, or as part of a more contemporary composite design. The weatherboards are tough, ready for Australian conditions.

- Ship-lap joint does not require filling
- Concealed fixings for a cleaner aesthetic
- Pre-primed in a Dulux recommended primer colour and ready to paint
- Low maintenance when compared to natural timber weatherboards

ENDEAVOUR

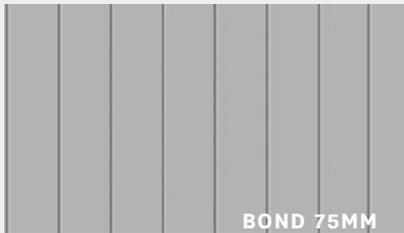

Endeavour® creates a traditional weatherboard look, but with a wider 295mm, double width weatherboard giving your home a distinct look. It has a linear, flat profile with a slight beveled detail and overlap that conceals fixings and gives the final paint finish a smooth appearance.

- Double width weatherboard
- Concealed fixings for a cleaner aesthetic
- Gun nailable for a faster installation
- Direct or cavity fix systems available

EDGE CLADDING

A bold and crisp cladding with defined grooves, Edge Cladding creates a truly unique look. Edge Cladding is available in 5 sharp and distinct designs that can be used both internally and externally for dramatic effect. It is perfect for the creative pairing with other materials, as part of a composite look.

BOND 75MM

OXFORD 150MM

RIBBON 150MM

A modern and relaxed cladding option with broad street appeal

- Multiple looks with one system – mix and match throughout your home
- Tongue and groove edges so it's easy to install and no filling of joints is required

- Can be installed vertically or horizontally
- For use externally, internally and in ceiling and soffit applications
- Great for garage linings

Edge Cladding

Simpleline

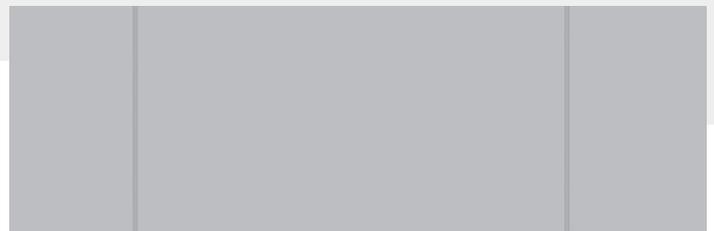

A strong, clean edged, vertical design in a large format panel. SimpleLine® provides a clean blank canvas for you to add your preferred paint colour.

A modern panel providing a clean and simple aesthetic

- Ship-lap joint does not require setting
- No visible face fixings
- Pre-primed and ready to paint
- Can be used in stage and zero lot walls and boundary walls

SIMPLELINE

Mosaic

*Dramatic and edgy,
ideal for a home that
demands attention*

An edgy and industrial wall design for modern homeowners. Mosaic® Square & Rectangular panels can be used with either bold or mild lines for creating more dramatic or seamless looks.

- A modern, rectangular express joint aesthetic
- Available in multiple panel sizes
- Preprimed and ready to paint
- Gun nailable for faster installation
- Suitable for use with timber and steel framing

MOSAIC SQUARE & RECTANGULAR

Prefinished

Cemintel offer a range of prefinished products and systems, expertly put together in a variety of colours and textures that allow you to create a truly distinct home. With so much choice the design possibilities are endless. Whether it's a complete façade, an internal or external feature wall, or a ceiling or soffit application, Cemintel prefinished panels add that distinct design feature to your home. Prefinished fibre cement options are proven to last longer and require less maintenance than many other cladding types.

BARESTONE

SURROUND

TERRITORY

Barestone™ is the Australian original raw concrete look.

Sophisticated and contemporary, it can be used both externally and internally. Because it is prefinished, it is low maintenance and doesn't need painting. Barestone will enhance the design and look of any home, seamlessly blending into its environment and weathering naturally.

ORIGINAL

ASH

The Australian original raw concrete look

LUNAR

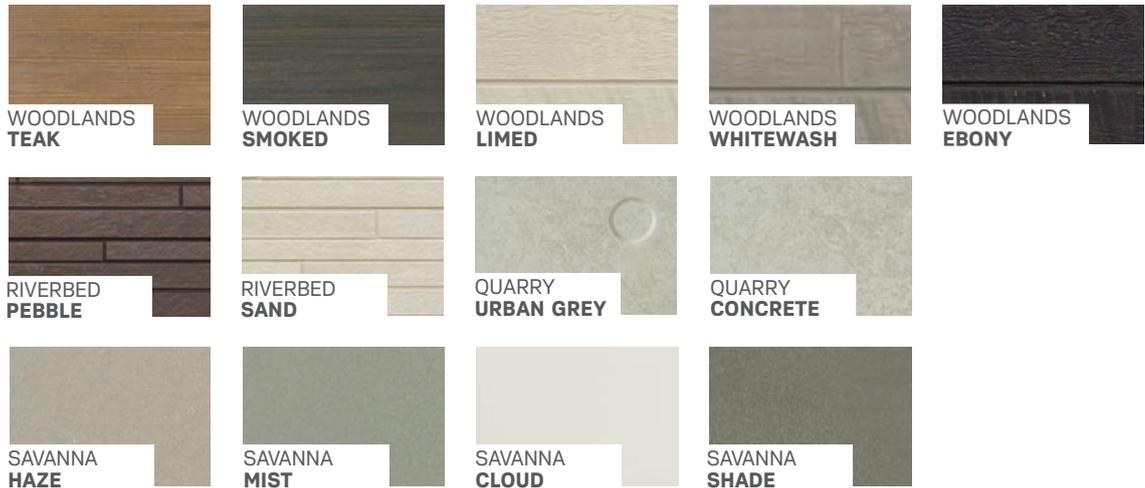

GRAPHITE

TERRITORY

Cemintel Territory™ is the next generation in residential cladding.

A natural, prefinished cladding range that simulates materials like stone, timber, concrete, metal, tiles and smooth render. Being prefinished, means it is low maintenance. With many different finishes available, Territory will enhance the look of your home for years to come.

A prefinished range that allows you to mix and match colours with confidence. Surround™ has a core palette of 5 neutral colours and discrete patterns with a secondary palette of 16 colours designed to highlight and complement the core palette offering. Surround panels can be installed horizontally or vertically and are becoming more popular in ceiling and eaves applications because you don't need to paint them.
