Define Yours

CEMINTEL®

New materials influence the way buildings are defined. Cemintel is responding to the growing importance of external and internal cladding with Territory.

The Territory cladding range acts on the preference for prefinished, lightweight materials and the desire for buildings to enhance the environment where we live.

From external façades to interior surfaces, Territory is a reinterpretation of cladding as we know it.

THIS IS CEMINTEL **TERRITORY**

CREATED FOR YOU. THIS IS WHERE YOU LIVE
AND EVERY DAY YOU SEE IT.

A natural cladding range that comes from the Japanese values of simplicity, nature and quality. It is a building block for your home.

These prefinished cladding panels simulate materials like stone, timber, concrete, metal, tiles and smooth render, in a sophisticated way that enhances building facades, without the ongoing maintenance.

We know the importance of cladding. It is has to do more than just look good. It protects you and your loved ones. Through constant innovation Cemintel brings you more choice, better performance and greater comfort.

**Your life never stops changing.
Redefine your Territory to match your life.**

TERRITORY

QUARRY // CONCRETE

WHY TERRITORY?

It is the future of building

Excellent performance in the **AS5113:2016**
– **Fire Propagation testing** and classification
of external walls and buildings*

The prefinished panels do not need
painting.

Minimal ongoing maintenance required.

Simple clip fixing system that **does not**
need brickies or brick cleaners for
installation.

The Territory system provides a **ventilated**
cavity to keep your building dry.

NichiGuard® **stain resistant and self**
cleaning coating.

Platinum coating technology **protects**
against UV damage and colour fade.

Free from asbestos and safe to use in
Australian building projects.

Panels are machined with a complementary
tongue and groove profile that **easily fit**
together.

Choice of simple aluminium or colour
matched, preformed **corners** to suit your
desired aesthetic.

*Subject to Opinion Report EWFA 54309700.4 has a
positive result across the range.

WOODLANDS

Prefinished panels that mimic timber in the closest possible way to create the warmth desired from the most natural of building materials, without the maintenance – essential in a time poor world.

**SAVANNA**

A smooth, prefinished panel with a hardy aesthetic to suit all pockets of the country. It comes in tones representative of some of our amazing and beautiful Australian landscapes.

CANYON

Exposed to all the elements, the softened pattern of this prefinished panel will easily carve a place in your interior space, or the local streetscape.

RIPPLE

RIVER BED

The pitted surface of these prefinished panels, combined with a tile pattern, emulates the erosive power of a river flowing through the landscape, leaving behind washed soil in sublime, earthy colours.

QUARRY

Prefinished panels that evoke the raw, unpretentious, malleable and functional properties of concrete, one of the most utilised products in the world.

CEMINTEL®

MANUFACTURING TECHNOLOGY

Panels are cement bonded, fibrous wood particle cladding that are pressed with a surface texture and prefinished using a durable, multi-layer paint process.

Panels are factory quality controlled, prefinished and ready to be installed.

Manufactured in Japan to JIS A 5422* (Fibre Reinforced Cement Sidings), the panels can be installed in either a horizontal or vertical orientation, using the unique Designer Series® clip fixing system.

Cemintel Territory has been tested to 'AS5113: 2016 – Fire propagation testing and classification of external walls of buildings', and subject to Opinion Report EWFA 54309700.4, has a positive result across the range.

*JIS 5422 is equivalent to AS/NZ 2908.2

Product Specification

Panel Width	470mm (overall width) 455mm (coverage)
Panel Length	3030mm
Panel Thickness	16mm
Panel Mass (EMC)	17.9-21.8kg/m ² (based on dry weight)
