

# PORTA CONTOURS

know & love  
timber

Timber Lining Boards

**Add elegance, texture  
& style to any room**

**Ideal for internal wall  
lining applications**

Porta Contours Profile: Strata (Right Wall), Riverine (Back Wall)  
Riverine/Plateau-39 (Counter)

Porta is a trusted Australian-owned company with over 70 years expertise in manufacturing innovative products using sustainable certified local and imported timber.

**Porta Contours Timber Lining Boards** are available in a range of textured designs to create calming atmospheres or vibrant patterns—suitable for straight and curved interior panelling.

- Certified timber
- Easy to install
- Set lengths to reduce waste
- Staining and coating available
- Supported by a wide range of trims and mouldings

### Textured surfaces - inspired by the contours of the Australian landscape

Create soft timber backdrops.

### Curved wall solution

Lining boards are suitable for curves down to a 1000mm radius. For tighter curves down to a 500mm radius Porta can supply matching corner beads (available for Riverine, Strata & Cirque).

### Mix and match designs

The consistent tongue and groove joint allows different profiles to connect.
